

# M-TAC Tablet Pack (Product Overview)

(Modular -Tactical)

The M-TAC Tablet Pack is more than just your standard tablet case. It's a gadget dream bag! While supporting the use of most tablet brands on the market the M-TAC Pack offers versatility like no other and can be configured multiple ways to suit your working and life style. Whether at home, work, the airport or in your car the M-TAC Pack is a practical and reliable way to carry all your essentials. M-TAC Pack is Berry Compliant and constructed with quality standards you have come to expect from Tactical Concealment.

The M-TAC Tablet Pack is made up of the following components:

## Component 1 of 3 : Tablet Case

- Will accommodate iPads and most tablet brands.
- Requires the use of any bi-fold tablet cover.
- Hardshell & 1/4" thick foam padded to provide optimum shock and drop.
- M.O.L.L.E webbing on front and back of case.
- Front pocket fits Apple wireless keyboard.
- Two large clear vinyl map pockets.
- Sturdy hand carry handle.
- Integrated loops for shoulder strap. (shoulder strap sold separately)

## Component 2 of 3: Tablet Cover (optional)

- Protective hard shell covered with 1000 denier Cordura nylon.
- Clear vinyl exterior map pocket.

Currently 3 models to choose from:

- Model 1:** Designed to hold most tablets via velcro attachment. (Part #10C5100)
- Model 2:** Designed to hold iPad (Part #10C5101)

# M-TAC Tablet Pack (Product Overview 2)

(Modular -Tactical)

M-TAC Pack is shown with lower dual-saddle extension attached. (saddle extension sold separately)

Showing easy accessibility of essential items when saddle attachment is used with M-TAC Case.

Just flip over the saddle attachment and reach into the front pocket of M-TAC Case for more accessibility to documents.

Open up the M-TAC Case like so for easy tablet use.

Flip over the tablet cover in tri-fold view as shown for even more accessibility to documents. With so many configurations, positions, and attachments, the M-TAC Pack can easily become a center console in your car if you wanted it to.

M-TAC Pack shown with saddle extension hanging below it for extra storage or configuration. (saddle extension sold separately)

Open up the M-TAC Case and fold it into a triangle position for better tablet viewing or use if desired.

# M-TAC Tablet Case (Component 1 of 3)

(Modular - Tactical)

The M-TAC Tablet Case accommodates all iPads and most tablet brands. The M-TAC Tablet Case alone will not properly hold your tablet device; it requires a bi-fold tablet cover to be inserted into it. The cover could be ours or one you purchased elsewhere. The outer portion of the case offers hard shell protection while the inside of the case offers 1/4" thick foam softening protection. The entire case is quality stitched with 1000d Cordura for the ultimate in abrasion and wear, style and feature upgradability. M.O.L.L.E webbing covered with Velcro loop accommodates M-TAC Saddle attachments or any M.O.L.L.E pouch you have. A large exterior bay pocket can fit the wireless Apple keyboard perfectly.

## Component 1 of 3 : Tablet Case

(Part #10C5200)

- Will accommodate iPads and most tablet brands.
- Requires the use of any bi-fold tablet cover.
- Hardshell & 1/4" thick foam padded to provide optimum shock and drop.
- M.O.L.L.E webbing on front and back of case.
- Front pocket fits Apple wireless keyboard.
- Two large clear vinyl map pockets.
- Sturdy hand carry handle.
- Integrated loops for shoulder strap. (shoulder strap sold separately)

M-TAC Tablet Case folded inside out with Tablet Cover (model 3) positioned down against case.

# M-TAC Tablet Cover (Component 2 of 3)

(Modular -Tactical)

The M-TAC Tablet Cover offers your tablet hard shell protection and functions as a stylish stand-alone cover. The bi-fold design is simple and straightforward to use. Our exclusive "rail system" on Models 2,3 & 4 secures your iPad professionally and securely. The M-TAC Tablet Cover can also be inserted into the M-TAC case for added protection and a foundation to support feature rich functions. The 4 models currently offered allow full access to all ports and buttons on your tablet. Model 3 and 4 also have a hole in the case to support camera use. An external clear vinyl pocket serves to store maps or documents.

## Component 2 of 3: Tablet Cover (optional)

- Protective hard shell covered with 1000 denier Cordura nylon.
- Clear vinyl exterior map pocket.

# M-TAC Saddle Attachments (Component 3 of 3)

(Modular -Tactical)

The M-TAC Saddle Attachments allow for personal customization of the M-TAC Pack. Each model offers a different pocket configuration for gadget arrangement, accessibility and storage. To support your gadget accessibility and storage placement. The backside of each Saddle Attachment has four 1-inch MOLLE Straps standard to attach it to the M-TAC Case. The Saddle Attachments are universal standard and can be used on your other M.O.L.L.E equipment as well.

## Component 3 of 3: Saddle Attachments

(optional)

- Velcro on front pockets provide for extra modularization or for patches as shown below.
- Different attachments provide different pocket sizes for various objects.
- Use straps on back to attach to case.
